Hick vs Artist

Monday October 10th 2017
10:45 AM

Christina Thom and I are driving to Oakland.

Jake came up on Thursday and we went to a movie on Thursday SENTIENT ENGINE SLAYER. featuring THE EXTERNAL WORLD. I met David O'Reilly and then we went to Silver Lake and met Jake's friend Brin.

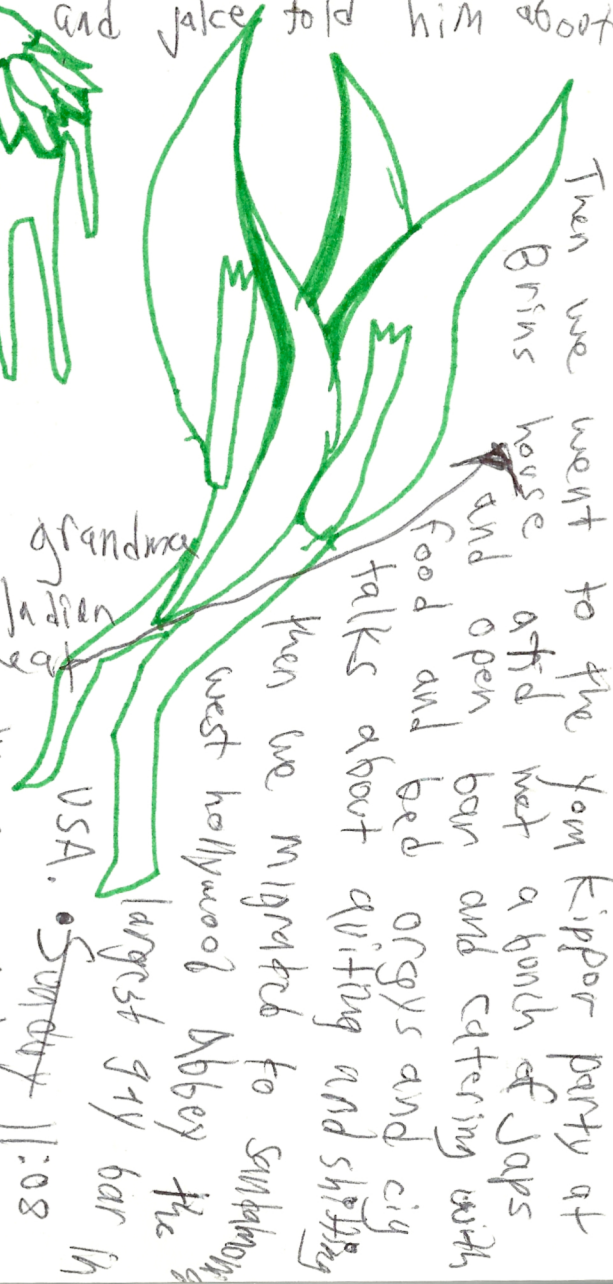

Brin is a LA boy New York JAP who does dance. We hung out with her and one ear jess? Then we got hot pizza and on Friday we went to CENTRAL and the room. Jake and I spot beer and danced and sat in the dark and on tomorrow boots

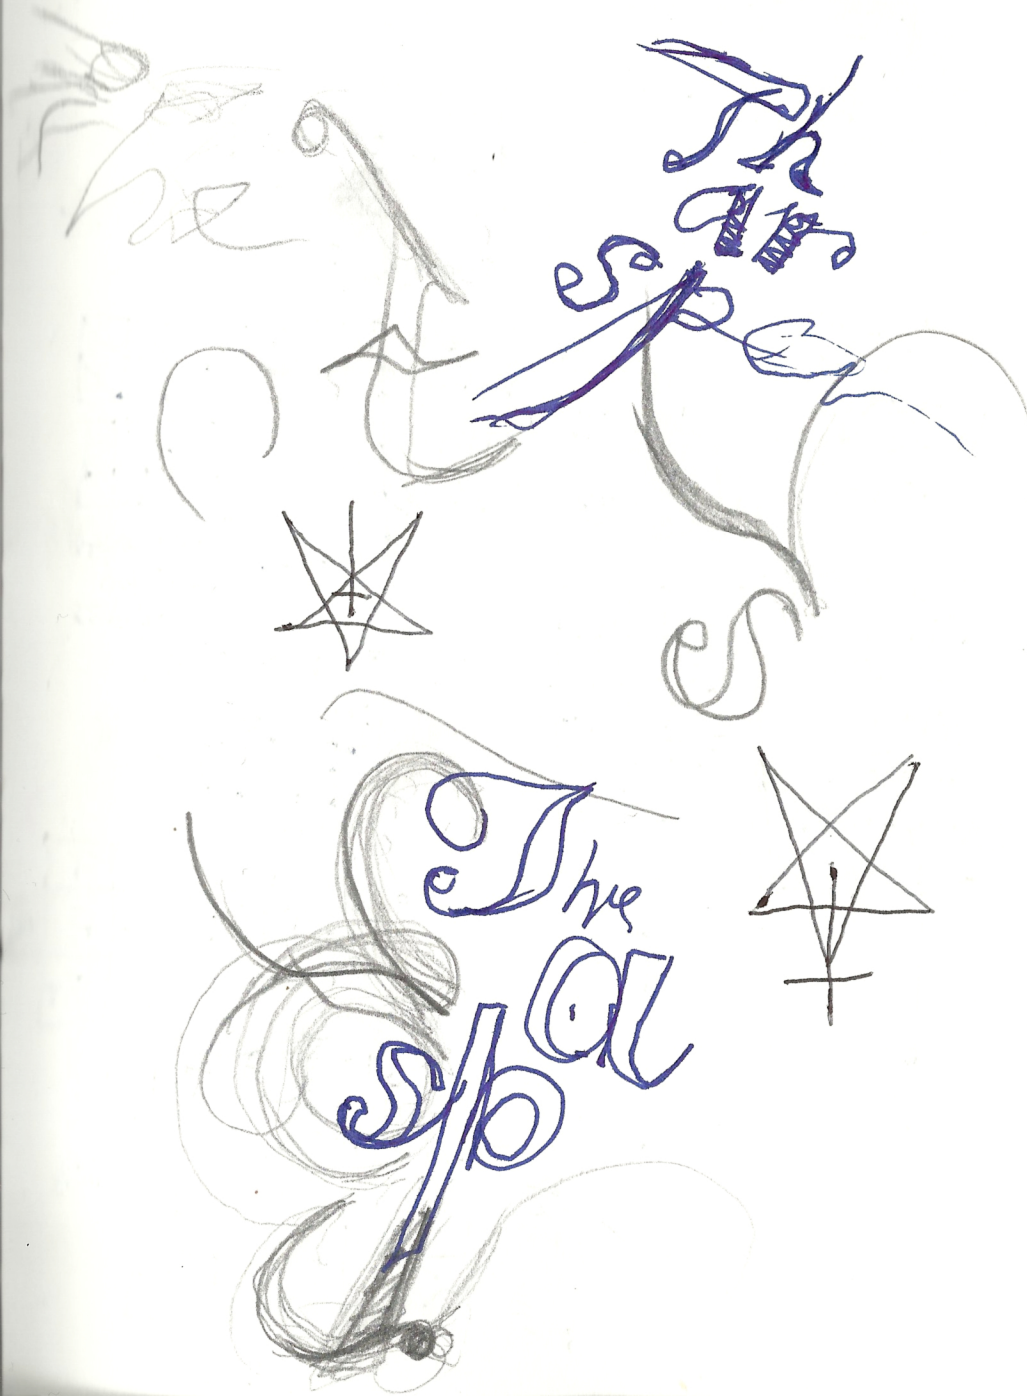

10:55 and again crews smoking and sloppy sexy girls who Jake kisses me for and he makes them do pushups. then we went to Michael's and flirted about music and Jake told him about my disease

to explain how much I like cigs.

Saturday we went to MICKS mansion and dads to see grandma on dad's side. Indian food tasted great

Then we went to the Yom Kippor party at house and open bar and catering with food and bed orgys and cig talks about quitting and shipping west hollywood Abbey the largest gay bar in USA. Sunday 11:08 we are getting off the freeway to eat in and out. Sunday was lazy drunk from hangover hell and Mexican poop madness then Jake left at like 5:00

I threw the towel at Pedram
after he cussed me out after a
week of silence. He said Heather is a
thief so she stole his Crowley space
book. I got my website figured out
and am starting a new... lost my train
of thought. I am going to try to tweet
daily. Heather got a hold of Devin Finch who
is living in LA now

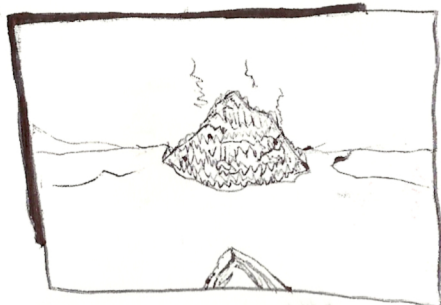

March 20th 3:18 pm

I am on Ocean Park Blvd with
Busta. Lisa drove her around 11:30
and I was at a creative circle meeting.
She still wanted to get out of the
house. I met Devin Finch and his roommates
are funvince, an animation/media group.
They know people from adults swim. We went
to see the CD/Music Video release
party for DUNES and I met Junglake.
I called Vinny and he got back to
me when I was at Heather's new
beach trailer park house. He said
his buddies are working with Ryan Treacy.
I am making a 3d film with
Brendan about a blind man in a boat.

Busta and I went to EarthWind+Flour
and her toenails are stabbing through
her stockings. I really love cine family.
I might try to finish up the
dreamscapes I have been working
on. tying my dreamlands together

Secondlife + Inworldz

- Cost per unload
- Graphics capability
- Find secondlife Exporter
- Inworlds does not support mesh
- There has got to be a better machinima program than second life
- Find some machinima thats worth a shit.

Dreamscape

- minecraft
- Google sketchup ^{PS} → Maya
- second life

Minecraft Machinima

- texture how you want
- develop mods?
- cool company / Free
- there were camera controls
- It seems the avatars cant H
- Pay for server

Inworld seems really cool
and cheap to buy lands

- Look into secondlife (Inworldz) scripting and tools for filmmaking

- Motion tracking for animations IG

- Inworldz not having mesh should be fine, it has sculpt

Help

- I need to meet people interested in what Im doing / browse more forums. Lowend 3d was a good place.

- machinima forums will be nice, sign up and become active. introduce myself.

- I would like a computer I could upgrade
- I would like a good pen (lots of colors)
- I would like a monitor for more room

★ - I should make film about my machinima frustrations with some NES zelda stuff
